Hardworking and enthusiastic student with excellent organisational skills who is keen to greatly expand my knowledge and skills in Cyber Security and Artificial Intelligence in preparation for a dream profession.

Skills

- Python3
- Cloud Computing
- Web Frameworks(Flask/Django)
- JS/HTML/CSS
- Linux
- Pentesting
- Organisation and Time Management
- Excellent Communication
- Flexible and Adaptable
- Teamwork and Collaboration

Work History

Apr 2021 - Current **Freelance**

Fiverr, Perth, WA

- Developed variety of Desktop applications and edited pre-made programs based on customer specification. Mostly automated applications for enterprnuers, business owners and marketing teams.

Key achievements:

- Improved my programming expertise.
- Customer service skills and customer engagement have improved.

- Improved time management skills.
- Learned new technologies.

**Apr 2020 -
Jun 2021**

Internship

Ninja Software, Perth, WA

- Developed websites and Desktop applications using Python3, SQL-Lite Database, Django/Flask frameworks, API's, Bootstrap and variety of other technologies and frameworks.

Key achievement:

- what API's are and how to use them, along with technologies that makes it easier to work with them such as Insomnia.
- learned database structuring and relationships.
- Designed and developed a mini-library website where users have the functionality to store books they have read. The users can decide to save the book in the "favorite" section or regular section along with notes about the book. if they place it in the "favorite" section the website will fetch an image of the book automatically using the goggle's API.
